Master CCA in English

RNCP 35991

Alternating, face-to-face,
online, English language

The master’s degree—CCA—aims to give students both the theoretical skills linked to classroom learning and an operational knowledge of accounting and auditing practices and the related legal and managerial dimensions. During these two years of study, students acquire, in addition to their theoretical skills, interpersonal skills and know how necessary for professional development in positions of responsibility. During the two years of study, the students will spend three days a week in a firm or company and two days in training at Intec.
